Emergency Exemption: Issuance

On 13 December 1995, a permit, US 809571, was issued to the Southwest Foundation for Biomedical Research, San Antonio, Texas to import two serum samples from one captive-born lion-tailed macaque (*Macaca silenus*) from the Metro Toronto Zoo, Ontario, Canada for diagnostic virology. The 30-day public comment period required by the Endangered Species Act was waived in accordance with section 10(c) of the Endangered Species Act. The Fish & Wildlife Service determined that an emergency affecting the health and life of one of the animal's care-takers existed and no reasonable alternative was available to the applicant. The care-taker was bitten on 11 December 1995, by the animal which is a potential carrier of the monkey B-virus (*Herpes*

simiae). The B-virus is lethal to humans if not diagnosed within the first few days. Regardless of the test results the lion-tailed macaque will not be destroyed.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 420(c), Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.
